

ANNOUNCEMENT

"ECTS MA" ANNUAL MEETING joint with STAFF TRAINING MF UL

May 8th to 10th 2014

Univerza v Ljubljani

The ECTS MA Executive Board and the International Office of the Faculty of Medicine at the University of Ljubljana, Slovenia have the pleasure to invite you at the

**Faculty of Medicine (MF) University of Ljubljana (UL)
in LJUBLJANA, SLOVENIA**

The University of Ljubljana and its Faculty of Medicine possess a rich tradition. It ranks as a very large university, with more than 51.000 graduate and postgraduate students. Approximately 4.000 higher education teachers are employed in the 3 arts academies and 23 faculties. The university was founded in 1919 on the basis of centuries of educational tradition, remaining the only Slovenian university for half a century. The University is based in Ljubljana, the capital of Slovenia, a relatively large Central-European city with over 300.000 inhabitants. Students account for more than one-seventh of the population, giving the city a youthful and lively character.

Slovenia is the only country in Europe that combines the Alps, the Mediterranean, the Pannonian Plain and the Karst. The changing landscape is constantly surprising, time and again. You can have one eye on the sea, then look in the other direction and be surrounded by high mountains. Heading up into the forests, you can see the green plains below you. From upland meadows your view stretches into river gorges. This proximity of opposites and contrasts is a hallmark of the country.
